The W920 of IPN Headsets brings a new standard to wireless communication with state-of-the-art design and improved performances. The headset offers a range of 250 m. / 820 ft. for intensive use in and around the workstation. The noise cancelling technology built into the microphone ensures that background noise is kept to a minimum.

The headset brings your telephony system together, enabling you to take calls from your desk phone.

The external port for an electronic hookswitch, featured as standard, means that telephone calls can be answered and ended remotely.

The IPN W920 has a sleek design which fits perfectly in every office environment.
